

We are excited to introduce the KU Nursing Pathway and invite your application!

KU Nursing Pathway students receive individual mentoring and participate in monthly events with KU School of Nursing faculty, practicing nurses, and healthcare industry leaders to:

- Prepare for advanced academic success
- Explore nursing career options
- Develop leadership skills

There is no cost to participate and no obligation to continue in the program. Students who complete phases 1 and 2 (described below) and choose to enroll at the KU School of Nursing receive scholarship awards during phase 3.

What does the program look like?

Where does the pathway start?

Currently, the pathway begins either in Wyandotte County, Kansas or from rural Kansas areas (most of Kansas excluding Kansas City, Topeka, and Wichita).

Wyandotte County Path: Students in this pathway attend (or attended) high school in Wyandotte County and plan to attend nursing school and pursue nursing careers in the Kansas City area. Students choosing to attend the KU School of Nursing will be admitted to the Kansas City campus.

Rural Kansas Path: Students in this pathway attend (or attended) high school in, and plan to pursue a nursing career in, a rural area of Kansas. Students choosing to attend the KU School of Nursing will be admitted to the Salina campus.
